

Guide adapted dataset:

Adapted the column names for German dataset:

Old Collums	New Columns
OID	OID
ID	c_id
ULAND	c_Federal_State
UREGBEZ	c_Administraive_region
UKREIS	c_Administrative_destrict
UGEMEINDE	c_Municipalitty
UJAHR	year
UMONAT	month
USTUNDE	hour
UWOCHENTAG	day_of_week
UKATEGORIE	casualty_severity
UART	kind_of_accident
UTYP1	type_of_accident
ULICHTVERH	Light_condiitons
IstRad	Road_surface_conditions
IstPKW	is_cyle
IstFuss	is_car
IstKrad	is_pedestrian
IstGkfz	is_mcycle
IstSonstige	is_goodsv
USTRZUSTAND	is_other
LINREFX	loc_eastings-X
LINREFX	loc_northings-Y
XGCSWGS84	longitude
YGCSWGS84	latitude
PLST	PLST
!New!	urban_or_rural_area

Column urban_or_rural_area like in the uk dataset. Defines collisions in „Gemeinden“ (communities) with more than 10000 citizen as urban (<https://roadtraffic.dft.gov.uk/about>).

Made columns of UK dataset more equal to the columns of German dataset (filename: reduced_uk_dataset.csv):

Column Name:	Description:
collision_index	taken from dataset
collision_year	taken from dataset
collision_ref_no	taken from dataset
location_easting_osgr	taken from dataset
location_northin_osgr	taken from dataset
longitude	taken from dataset
latitude	taken from dataset
casualty_severity	Like German dataset
day_of_week	taken from dataset
time	taken from dataset
local_authority_district	taken from dataset
local_authority_ons_district	taken from dataset
junction_detail	
junction_control	
light_conditions	1 to 0 (daylight), 4,5,6,7 to 2 (darkness), else - 1 (no „Dämmerung“ in UK data)
weather_conditions	taken from dataset
road_surface_conditions	from 0 to 1 (dry), 2,5,6,7 to 1 (wet/mud), 3,4 to 2 (snow/ice)
urban_or_rural_area	taken from dataset
vehicle_manoeuvre	taken from dataset
vehicle_direction_from	taken from dataset
vehicle_direction_to	taken from dataset
hit_object_in_carriageway	taken from dataset
vehicle_leaving_carriageway	taken from dataset
hit_object_off_carriageway	taken from dataset
is_car	Collisions with cars vehicle_types from the vehicle dataset where vehicle_type is 8,9,10,19
is_cyle	Collisions with pedal cycles from the vehicle dataset where vehicle_type is 1
is_mcyle	Collisions with evey type of Motorcycles vehicle_types from the vehicle dataset where vehicle_type is 2,3,4,5,23,97

is_goodsv	Collisions with goods vehicles vehicle_types from the vehicle dataset where vehicle_type is 11,20,21,98
is_other	Collisions with other vehicle_types from the vehicle dataset
is_pedestrian	Collisions where pedestrians were envolved, all collisions, where pedestrian_location is not 0
month	Split date column
day	Split date column

Made columns of UK dataset more eqal to the columns of German dataset including kind_of_accident and type_of_accident (filename: reduced_uk_dataset_with_kind_and_type.csv):

Column Name:	Description:
collision_index	taken from dataset
collision_year	taken from dataset
collision_ref_no	taken from dataset
location_easting_osgr	taken from dataset
location_northin_osgr	taken from dataset
longitude	taken from dataset
latitude	taken from dataset
collision_severity	Like German dataset
day_of_week	taken from dataset
time	taken from dataset
local_authority_district	taken from dataset
local_authority_ons_district	taken from dataset
light_conditions	1 to 0 (daylight), 4,5,6,7 to 2 (darkness), else - 1 (no „Dämmerung“ in UK data
weather_conditions	taken from dataset
read_surface_conditions	from 0 to 1 (dry), 2,5,6,7 to 1 (wet/mud), 3,4 to 2 (snow/ice)
is_car	Collisions with cars vehicle_types from the vehicle dataset where vehicle_type is 8,9,10,19
is_cyle	Collisions with pedal cycles from the vehicle dataset where vehicle_type is 1
is_mcyle	Collisions with every type of Motorcycles vehicle_types from the vehicle dataset where vehicle_type is 2,3,4,5,23,97
is_goods_v	Collisions with goods vehicles vehicle_types from the vehicle dataset where vehicle_type is 11,20,21,98
is_other	Collisions with other vehicle_types from the vehicle dataset
is_pedestrian	Collisions where pedestrians were involved, all collisions, where pedestrian_location is not 0
month	Split date column
day	Split date column
kind_of_accident_1	1 = Collision with another vehicle which starts, stops or is stationary

	vehicle_maneuvre: 2 parked,4: Slowing or stopping,5: moving off , 14: Overtaking stationary vehicle on its offside ,20 parking
kind_of_accident_2	2 = Collision with another vehicle moving ahead or waiting 3: Waiting to go ahead 15:Overtaking on nearside (passengers side nearest kerb) 19: going ahead
kind_of_accident_3	3 = Collision with another vehicle moving laterally in the same direction vehicle_maneuvre 13: Over taking moving vehicle on its offside
kind_of_accident_4	4 = Collision with another oncoming vehicle vehicle_direction_from vehicle_dirction_to: 0, 99, -1 not in entry
kind_of_accident_5	5 = Collision with another vehicle which turns into or crosses a road vehicle_maneuvre: 6: U-turn 7: turning left, 9: turning right, 8: waiting to turn left, 10: waiting to turn right kind_of_accident_5 = [6,7,9,8,10]
kind_of_accident_6	6 = Collision between vehicle and pedestrian If pedestrian is involved and one of the other types
kind_of_accident_7	7 = Collision with an obstacle in the carriageway hit_object_in_carriageway: 1-12, not in 0,99,-1
kind_of_accident_8	8 = Leaving the carriageway to the right vehicle_leaving_carriageway: 4-8 offside else
kind_of_accident_9	9 = Leaving the carriageway to the left vehicle_leaving_carriageway: 1,2 Nearside
kind_of_accident_0	0 = Accident of another kind vehicle_maneuvre: 99, -1 in entry
type_of_accident_1	1 = Driving accident accidents without pedestrians

type_of_accident_2	2 = Accident caused by turning off the road vehicle_manoeuvre: 7: Turning left, 9: Turning right
type_of_accident_3	3 = Accident caused by turning into a road or by crossing it junction_location: 2: Cleared junction or waiting/parked at junction exit, 3: Leaving roundabout, 4: Entering roundabout, 5: Leaving main road, 6: Entering main road 7: Entering from slip road 8: Mid Junction - on roundabout or on main road
type_of_accident_4	4 = Accident caused by crossing the road pedestrian_movement: 1: Crossing from driver's nearside, 2: Crossing from nearside - masked by parked or stationary vehicle, 3: Crossing from driver's offside, 4: Crossing from offside - masked by parked or stationary vehicle
type_of_accident_5	5 = Accident involving stationary vehicle vehicle_manoeuvre: 3: Waiting to go ahead, 4: Slowing or stopping
type_of_accident_6	6 = Accident between vehicles moving along in carriageway vehicle_manoeuvre: 11: Changing lane to left 12: Changing lane to right, 13: Over taking moving vehicle on its offside
type_of_accident_7	Other accident (not included)
